

**Increase Profits,
Boost Reproduction
& Manage Cow Health**
Alpro Activity Monitoring
by DeLaval

Your solution - every day

It's like having a herdsman 24/7

So you have time for the other things.

Get the most out of Activity monitoring! Alpro® Activity offers more features than any system on the market today:

- Hourly monitoring 24 hrs a day
- Field tested for over a decade
- Neck mounted 3 – D Technology
- Low maintenance, 10 year battery life
- Pasture system compatible
- Stand Alone - perfect for any system
- High activity alerts for reproductive improvements
- Low activity monitoring for health issues
- Fastest ROI vs. competitors
- Dedicated network support
- Links to DeLaval parlor systems, ID, milk weights, and sort gates

**Friday, Dec. 9th, 11:30 to 2:30 p.m.
Johnstown Community Center
9937 E. Cty Rd. A, Janesville, WI**

There is a lot of talk around the countryside about automated heat detection systems, well the Scharine Group wants you to know we have the system you need for your dairy herd.

DeLaval's Activity System is the most advanced, time tested system available. With over a decade of on farm use, this system is backed by not only a great price, but the expertise to support you after the sale. Compared to other systems, Alpro Activity is...

- Real Time Monitoring with data sent every hour!
- Highly Reliable
- Lowest Maintenance
- Fastest Return on Investment
- The most tried and true system in the field

We also want you to know we are offering the absolute best package for your dairy for those attending this meeting.

Saving time and money while improving management always makes sense. So... Save the date!

Friday, Dec. 9 at the Johnstown Community Center
Lunch will be served at 11:30 a.m.
Meeting will be concluding about 2:30 p.m.
